

Extension of Exemption No. 6685A for FAR 133.43 (A)

Regulatory Docket No. FAA-2001-9791

Exemption No. 6685

This is a request and petition on behalf of NockAir Helicopter, Inc. for an extension of exemption No. 6685A, for FAR 133.43. The conditions and reasons presented in the original petition upon which the exemption was granted remain unchanged, in pertaining to public interest and safety.

The exemption from Section 133.43 (a) and (b) of Title 14, Code of Federal Regulations (14 CFR) permits NAHI to use its helicopters to perform aerial trapeze acts without using an approved external-load attachment or a quick-release device for carrying a person on a trapeze bar.

Further more, we request that the relief extension, is not delayed by publication in the federal register. Because the requested extension of the exemption would not set a precedent and any delay in acting on this petition would be detrimental to NAHI.

If you have any questions please feel free to call me at: 941-322-1812 or my cell: 99941-350-8048. I thank you for your cooperation in advance.

Sincerely,

Eugene A. Nock

President

NockAir Helicopter, Inc.
